# Installation & Activation Guide

System Requirements

Before installing, ensure your computer meets these requirements:

- **Operating System: Windows 10, or 11 (32-bit or 64-bit).**
- **RAM: Minimum 2GB.**
- **Disk Space: 100MB free space.**
- **Printers: Supports any standard A4/A5 Laser printer or 2-inch/3-inch Thermal Receipt printer.**

1. Installation

1. **Download: Visit www.zarqeen.in and click Download Free Trial.**
2. **Run Setup: Open your Downloads folder and double-click `Zarqeen_Alif.exe`.**
3. **Permissions: If Windows shows a blue "Protected your PC" screen, click More Info then Run Anyway.**

4. **Desktop Icon: Once finished, look for the Zarqeen Alif icon on your desktop and open it.**

2. First-Time Registration

When you launch the app for the first time, you must create a local account:

1. **Click on Register / Create Account.**
2. **Enter your Name, Email, Phone Number, and choose a Password.**
3. **Click Submit. Your data is saved locally on your computer for maximum security.**

---

3. Sign In

After registration, you will be directed to the Sign In page:

1. **Enter the Username and Password you just created.**
2. **Click Sign in.**

---

4. The Generator Page (Main Screen)

Once logged in, you will arrive at the Generator Page. This is where you create your bills.

-   **Creating Bills: You can start adding items and generating invoices immediately during your trial.**

---

5. License Activation (Subscription Page)

To remove the trial limit or renew your software, you must visit the Subscription Page:

1. **Click on the Subscription or License icon in the sidebar menu.**

2. **Load License: If you have purchased a license from our website or a distributor, you will have a file named** `license.zarqeen`.

3. **Click the Load License File button.**

4. **Select your file from your computer Or you can simply paste the license key and click "Activate".**

6. Quick Setup Tips

*   **Business Info: Go to Settings to add your Shop Name, Address, and GST number.**

*   **Printers: Zarqeen Alif automatically detects your connected printers. Set your default to A4, A5, or Thermal in the Settings tab.**

*   **Offline Security: Remember, no data ever leaves your computer. You are the owner of your data.**
